

Activity Groups Form

Group Name

Dates at Min y Don

Your overall numbers will determine how many children are in each activity group. As a guideline, we often go for a maximum of 12 in each group. i.e. 13 children would be divided into two groups, 25 children into 3 groups and 37 children into 4 groups.

You'll know for sure how many activity groups your overall number has been divided into when you receive the draft copy of your programme for your visit.

Please provide us with the names of the children in each activity group:

GROUP A	GROUP B	GROUP C	GROUP D
